John Clough was paid last year for carrying one boy to Waterboro schools \$3.00 per week, this year he did it for \$2.50. Edwin Roberts took three to No. 3 school for \$4.00 per week. C. F. Warren conveyed the Merrill school children in summer for ten weeks for \$47.00. L. May Evans one for \$2.00 per week, later 2 for \$4.00. These were the best arrangements we could make. The repairs were chiefly painting Nos. 3 and 5. The high school account you will notice contains one old bill from Waterboro for the Welch girl. It will be seen by the statistical report that the summer term of No. 2 was taught by Miss Margaret Rummery of this town with satisfactory results. As she declined to return for the fall term Miss Mildred C. Allen of Bridgton, took charge and gave excellent satisfaction until compelled on account of her health, to leave at the end of the seventh week. W. L. Post was employed to finish the fall and winter terms, and gave good satisfaction although it was his first experience as teacher.

The falling off in attendance at No. 3 was because one family moved away, and near the close of the fall term Mr. Roberts' children from No. 6 were displeased with the discipline, and were allowed to stay away some, and all of the winter term, and as they had the right to instruct them at home I didn't interfere with their plans.

The summer term at No. 4 was well conducted by Miss Murphy, and good results were apparent. She did not care to take the fall term so Miss Merry from Wiscasset was employed. This was her first experience, and I was well satisfied with the appearance and results of her efforts.

The summer term of No. 5 was taught by Miss Ethel D Murry of Boothbay Harbor, who had taught in town before with the best of results, and in this school she commenced

and continued in her usual manner until the latter part of the term when she appeared to lose some of her interest, and the scholars quickly followed in that line, and she closed with the tenth week. The fall and winter terms were conducted by Miss Alice L. Blair from Woolwich. She was an excellent disciplinarian, and I was well satisfied with her work. The falling off in attendance at the winter term was, on account of the Merrill family moving out of town.

At No. 7 Miss Huff from North Edgcomb came with no previous experience, but proved to be a good disciplinarian, and the work was entirely satisfactory for the three terms.

At No. 8 Miss Hansen took the school as her first experience, and was successful enough to give me pleasure to retain her for the entire year.

At No. 9 Miss Blanche Huff of this town taught the three terms to the entire satisfaction of the superintendent and all interested.

New Emerson and Bender Grammars have been introduced, which have given good satisfaction to all the teachers. I am not in favor of furnishing all kinds of supplementary reading for our schools, it is enough I think, to furnish the usual text-books. The geographies are getting rather bad, some new ones may be needed.

F. C. TRIPP,

*Superintendent.*

In assuming charge of the schools, I found the books in as good condition as could be expected, the houses in good repair, the pupils courteous and obedient, all of which indicated able supervision under my predecessor. I was able to secure some very competent teachers to place in our schools by advancing the pay per week from \$7 00 to \$7 50, which I think was a step in the right direction.

The teachers who have taught in our town before, and always successfully, that I had the good fortune to secure for the year were, Mary E. Thompson, Blanche W. Huff, and L. Pitt Warren, they all being progressive and up-to-date teachers, did first-class work, the pupils attending schools taught by them making rapid and thorough progress which was very pleasing to me. The teachers who have never taught in our town before, but have made a success of teaching are as follows: Mrs. Margie P. Tibbetts, Luella M. Bachelder, and Olive Davis.

When Florence A. Marble was taken sick after teaching one week, and had to give up school No. 3, I was very fortunate in securing Mrs. Margie P. Tibbetts to take charge of that school, and although a stranger on our teaching force, she is an experienced teacher, a normal graduate, having taught about 30 terms. Her school was a success in every sense of the word.

Luella M. Bachelder of Hallowell is a teacher for whom I predict a brilliant future. She is an energetic, conscientious teacher, a good disciplinarian, a well educated young lady blessed with good judgment, and I consider her three terms at No. 8 very successful.

Olive Davis was given the fall term at No. 2 at the request of the parents who have pupils that attend school. This

school is composed of small scholars and Miss Davis soon won the esteem and good will of her pupils and her first term was all that could be desired ; but at the winter term the attendance dropped off considerably, the pupils being small and living at quite a distance from the school house, were unable to attend very regular.

The ear and eye test as given the pupils is a very important matter, and parents or guardians that receive a card should give the matter immediate attention.

The text books in use in our schools are in very good condition, with the exception of our geographies, which are in bad shape. I suggest a change of geographies.

Instead of having a school at No. 4 we thought it better to convey the scholars to No. 8. At the time of beginning the fall term there were eight scholars to attend No. 5, so I began the school, but before the close of the first week four of the scholars had moved away, and I closed the school and conveyed the scholars to No. 7.

Now in closing I wish to make a request of the parents of scholars in this town. This school question is one of the foremost questions of our time, and let us give it due consideration. My request for the fathers to consider is this, In selecting a man to serve on the school board, let us consider the qualifications of the candidate, and vote for the man that in our judgment is best fitted to serve in this very important capacity, for you must remember he is chosen for three years. My request for the mothers to consider is this, that you visit the schools as often as

convenient, and that you give the teacher your hearty co-operation in her work, and notice the effect on the school in general and your children in particular.

Respectfully submitted,

CLINTON F. WARREN,

Supervisor.
